PROFESSIONAL SUMMARY

Java Full Stack Developer with 1+ year of professional experience designing, building, and maintaining production applications using Java, Spring Boot, Spring Security, React.js, and MySQL. Solved 500+ Data Structures & Algorithms problems and hold a 5-star HackerRank (Java) rating. Seeking a Software Engineer / Java Full Stack Developer role to apply strong backend fundamentals and full-stack delivery experience.

TECHNICAL SKILLS

Languages & Core: Java, SQL, JavaScript, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate (JPA), RESTful API Design & Development, JWT Authentication

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Database: MySQL, Relational Database Design, DBMS

Tools & Practices: Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code, API Testing, Unit Testing, Agile Methodology, Code Reviews

PROFESSIONAL EXPERIENCE

Junior Java Developer — PlusInfoLab, Surat, Gujarat

Dec 2025 – Jun 2026

- Developed and maintained backend applications using Java, Spring Boot, and MySQL, contributing to production features used by live clients.
- Designed and implemented RESTful APIs end-to-end, translating business requirements into working backend features.
- Improved application performance and resolved production issues by debugging and optimizing existing Java/Spring Boot services.
- Collaborated with cross-functional teams (QA, senior developers, product) in an Agile environment to plan and deliver sprints on schedule.

Java Developer Intern — PlusInfoLab, Surat, Gujarat

Jul 2025 – Dec 2025

- Built and tested RESTful APIs and performed MySQL database operations (schema design, queries, CRUD operations) supporting internal applications.
- Assisted in developing Java and Spring Boot applications following clean coding practices and team coding standards.
- Fixed bugs and participated in peer code reviews, improving code quality and reducing defect turnaround time.

PROJECTS

MyDailyEntry — Secure Full-Stack Journal Web Application

Tech Stack: Java, Spring Boot, Spring Security, React.js, MySQL, REST APIs

- Built a full-stack journal management application end-to-end using Java, Spring Boot, React.js, and MySQL.
- Implemented JWT-based authentication and role-based access control (RBAC) using Spring Security to secure API endpoints.
- Designed and exposed RESTful APIs consumed by a responsive React.js frontend, including input validation and global exception handling.
- Tested all API endpoints using Postman to verify functionality, edge cases, and error handling before integration.

Sorting Visualizer — Algorithm Visualization Tool

Tech Stack: HTML, CSS, JavaScript

- Built an interactive web tool visualizing Bubble Sort, Merge Sort, and Quick Sort with real-time animations.
- Implemented core sorting algorithms in JavaScript to help users understand algorithmic behavior step by step.

EDUCATION

B.E. in Computer Engineering — C. K. Pithawala College of Engineering & Technology, Surat, Gujarat 2021 – 2025

CGPA: 7.91/10

Higher Secondary Education — Vashishtha Vidhyalaya, Surat, Gujarat

2019 – 2021

Percentage: 86.5%
